

Electric actuators

They guarantee comfortable and automatic window operation. This is a perfect solution for windows mounted in locations with difficult access. A rain sensor which closes the window automatically when rain is detected. It is also possible to equip the window with a wind sensor which closes the window automatically when strong wind is detected. A simple and flexible solution preventing the need for the manual window operation..

Telescopic stick

Telescopic stick for roof windows allows easy and simple control of a window installed at a high height. Available in **160cm** and **200cm versions**.

Water permeable membrane SkyDAMP

Made out of a roofing membrane of approximately 150 g/m², three-layer, open diffusion, with excellent vapour permeability. Durable and resistant to aging. Suitable for use on fully boarded roofs.
